

GIRLS SIZING UPDATE

We have updated our sizing options for boy's and girl's clothing to increase the number of your/consignor items sold by making sure the appropriate sizes are on the correct rack. In doing so, we ask you to update your clothing tags based on the size chart below.

HOW TO USE THE CHART BELOW:

Find your category, then find the size of your item on the left side of the chart and follow that row to the far right column to see the label in the system.

*** If you have an item listed with multiple sizes (example 8-10), please label it by the lowest number (so for an item that says size 8-10 - the size would be an 8 in the system).
